## ABOUT CERTIK

CertiK is a pioneer in blockchain security, leveraging best-in-class AI technology to protect and monitor blockchain protocols and smart contracts. Founded in 2018 by professors from Yale University and Columbia University, CertiK’s mission is to secure the web3 world. CertiK applies cutting-edge innovations from academia to enterprise, enabling mission-critical applications to scale with safety and correctness.

One of the fastest-growing and most trusted companies in blockchain security, CertiK is a true market leader. To date, CertiK has worked with over **3,600** Enterprise clients, secured over **\$360 billion** worth of digital assets, and has detected over **66,000** vulnerabilities in blockchain code. Our clients include leading projects such as Aave, Polygon, Binance Smart Chain, Terra, Yearn, and Chiliz.

CertiK is backed by Insight, Partners, Sequoia, Tiger Global, Coatue Management, Lightspeed, Advent International, SoftBank, Hillhouse Capital, Goldman Sachs, Coinbase Ventures, Binance, Shunwei Capital, IDG Capital, Wing, Legend Star, Danhua Capital and other investors.

**CERTIK IS A GLOBAL COMPANY WITH TEAM MEMBERS AROUND THE WORLD.**

# WHAT WE DO

## CERTIK PRODUCT SUITE

### Audit

A comprehensive security assessment of your smart contract and blockchain code to identify vulnerabilities and recommend ways to fix them.

### On-Chain Analytics and Monitoring (Skynet)

Powering on-chain security monitoring and data insights for smart contracts.

### KYC

Designed to de-anonymize blockchain and Web3 project teams and create greater accountability through a rigorous vetting process of project owners.

### Penetration Testing

A safe and In-depth attack simulation to expose the most complex vulnerabilities on your crypto exchanges, wallets and Dapps.

### Bug Bounty

Crowdsourcing from a list of the world's top ethical hackers to provide you continuous assessment, for uncovering vulnerabilities before anyone else does.

### Wallet and Suspicious Activity Tracing (SkyTrace)

An intelligent wallet tracing and visualization tool to help you access security insights and follow the flow of funds.

## CERTIK CORE TECHNOLOGIES

### Formal Verification

Mathematical proofs to verify all possibilities of mission-critical programs

### Auto Scan

Scalable technology to identify and remediate security vulnerabilities

### Audits

Audits performed across all major protocols and languages

### Audit Report

Detailed and transparent Audit Reports

### Code Review

Code review by security experts

### Penetration Testing

Advanced Penetration Testing by experienced and ethical hackers

### Data-driven Security

Artificial Intelligent data driven decision for security analytics and monitoring

# WHAT THEY SAY ABOUT US

## INSIGHT PARTNERS

“CertiK is a mission-critical blockchain cybersecurity platform in a massive market and has already become a clear leader in the industry with a high-quality product that provides all-round security for blockchain, smart contracts, and Web3. We look forward to partnering with CertiK’s best in class founding team, complete with a team of leading crypto security thought leaders as they continue to grow and Scale-Up.”

— **Steve Ward**, Managing Director at Insight Partners

## TIGERGLOBAL

“The meteoric rise of decentralized finance has given millions of people the opportunity to become their own bank. Yet for the innovations to be fully trusted, security must be the focal point. We’re proud to support CertiK in raising the standards of security with the rollout of Skynet Premium. The product pioneers a novel and critical sector of the market: antivirus for blockchain.”

— **Pengfei Wang**, Partner of Tiger Global

## SEQUOIA

“Blockchain security is an indispensable link in the commercial value chain overall. We are very proud to invest in CertiK, which is deeply involved in this field. This is an important addition to our global blockchain investment landscape. We believe that CertiK can create synergies with other companies we have invested in. Our goal is that Sequoia can provide CertiK with resources to jointly develop the blockchain security market.”

— Spokesperson from Sequoia Capital

“We are excited to invest in CertiK as a leader in developing critically needed cybersecurity solutions for the Web3/DeFi market. The decentralized Internet that runs on the blockchain through smart contracts has experienced high levels of security breaches and is in dire need of the kind of effective solutions that CertiK provides. We look forward to partnering with the CertiK team as it continues its tremendous momentum in making blockchains safer and more performant while also providing consumers with much-needed visibility into security considerations across new and existing projects.”

— **Eric Noeth**, Partner at Advent International.

## Goldman Sachs

“Goldman Sachs is excited to be an investor in CertiK, a leading security platform for the blockchain and Web3 ecosystem. As we see continued growth in use cases and assets on decentralized applications the solutions being built by CertiK will be integral to securing the ecosystem, helping to accelerate innovation and adoption of these novel technologies.”

— **Oli Harris**, Managing Director at Goldman Sachs
